

Steps to Exit Guest Mode on Chromebook

1. Sign Out of Guest Mode

- Click on the time in the bottom-right corner of the screen, then select **Sign Out**.
- Alternatively, you can press the shortcut **Ctrl + Shift + Q** twice to log out.

2. Setup Your Chromebook

After signing out, a screen will appear saying, "Welcome to Your New Chromebook."

- Proceed through the setup process until you are prompted to connect to a Wi-Fi network.

3. Connect to Wi-Fi

To connect to the internet, you'll need an **Ethernet cable**. Plug it in to establish the connection.

4. Re-enrollment

Once connected, the Chromebook will complete its setup and automatically log the student back in.

- If done correctly, you'll notice the device has been reenrolled.
